CAUTION TO THE PUBLIC. To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or siver, bears our trade-mark on both case and movement Gold cases are stamped "A. W. Co," and guarantee cer tificates accompany them. Silver cases are stampe "Am. Watch Co., Waltham, Mass., Sterling Silver," and are accompanied by guarantee certificates, signer R. E. Robbins, Treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective or

either distinguishing marks.

This caution is rendered necessary by reason of the fact that our cases are frequently separated from our movements and put upon worthless movements of other movements and put upon worthless movements of other makers, and vice teres, thus affecting injuriously the performance of the watches and vitiating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary, also, because it is so notorious as to be a public scandal, that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent. from the quality they assume to be. This is a fraud upon the purchaser and accounts for the low price at which such chaser, and accounts for the low price at which such We take this occasion to announce that we have

we take this occasion to announce mar we have recently entirely remodelled the very popular grades of full
plate movements, known by the marks, "Wm. Ellery,"
"Appleton, Tracy & Co.," "Waltham Watch Co.," "P. S.
Bartlett," and "Broadway," giving to them not only a
highly improved appearance, but great additional value.
We embody in them such of the best results of our expetence and study for twenty years as can be useful in this We embody in them such of the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good performance and solid excellence at moderate cost. The alterations have been made with the view of pleasing practical watch makers, as well as watch wearers.

We avail ourselves, too, of this occasion to warn the public against CHEAP watches. The superiority of Waltham goods, in all grades, is now so generally asknowledged that our competitors, Swiss and American, seem to have no resource but to present the attraction of low price. Their goods being inferior to ours, they have low price. Their goods being inferior to ours, they have to sell them for what they can get. Times are hard, and people generally not knowing a good watch from a bad

when they get them nasty, also so ignorant that they neither know nor care whether they give a man his due; I know that the manufacturers, 'so-called,' are so set on carrying out competition to its utmost, competition of cheapness, not of excellence, that they meet the bargain hunters half way, and cheerfully furnish them with nasty wares at the cheap rate they are asked for, by means of what can be called by no prettier name than fraud."

We are much mistaken if this is what the public wants or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in his **ENGINES AND BOILERS** we are much mistaken it this is what the phonic wants or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in his occupation; interest and pleasure in the work are both wanting, and both are essential to good watch-making. Low price, especially in watches, Means Low Quality, with Low presonance and his means to make good watches, whatever the cost; holding firmly to this single purpose, we have seen improvement in quality and reduction in cost, by means of discoveries and improvements in machinery and by natural causes, gosteadily on together, until we can truly say, Waltham Watches, in their respective grades, are the best watches made, and as to the lower grades, they are within reach of everybody who earns wages. Our prices are as low as they ought to be, and as low as they will be. Watches cannot be made for nothing, even by machinery. We say to the public, buy a good watch while you are about it, and pay a proper price for it. The more you pay an honest dealer the better satisfied you will be in the end; don't be deceived by cheapness—quality descends faster than price. For American Watch Co., of Waltham, Mass. INAUGURATION BALL .- Last evening the officers and members of Hawaiian Lodge No. 21, F. & A. M. entertained a large party-some 200-of ladies and gentlemen at a ball, inaugurating their new and

beautiful hall, recently erected on the corner of Queen and Fort streets. The affair was conducted throughout to the satisfaction and pleasure of all the arrangements, including the brilliant lights, the fine music by Berger's band, and the recherche supper by mine host Herbert, leaving nothing that could be desired. Dancing was kept up until two o'clock this morning. LIBBARY AND READING ROOM ASSCRIATION .- We are glad to learn that at a meeting of the Privy Council on Saturday last, a liberal and comprehen-

sive charter was granted to the above organization The association being now complete in its organiza-tion and possessed of full corporate powers, includ-ing the right to acquire and hold property both real and personal; is prepared to prosecute its benefi-cent work as fast and as far as the means and facilities are provided. We are requested to acknowledge contributions of books for the library from Dr. Hutchinson, Hon. Walter M Gibson and Mrs. H. A. P. Carter. There are now nearly eight hundred volumes on the shelves and the reading room is regularly supplied with about fifty different papers

JOHN B. GOUGH IN LONDON .- The Christian at Work says that John B. Gough is meeting, as of old, with great success in London, and that he opposes the theory of Mr. Moody and others, that the grace of God always takes away the love of liquor, and nothing else will. He says he once spoke in the pulpit of a fashionable church in New York, and that night the pastor was very much intoxicated. He was afterward deposed for drunkenness; and he (Gough) had known a Doctor of Divinity who had preached the Gospel to thousands for twenty-eight years, to stand in a low grog shop with his face blackened and a number of degraded and dissolute men jeering him as he stood there and preached some of his old sermons for whisky to stave off the delirium tremens. Another talented clergyman was now a drunken hostler in Boston. Mr. Gough thought it would not do to say these were

not pious, good men, and yet they fell through 23 The Rev. Titus Coan, of Hilo, Hawaii writes a characteristic letter to the "Missionary Herald," the organ of the A. B. C. F. M., from the editor's notice of which we make the follow-

ing extract : The Rev. Titus Coan, who is now pastor of the native church at Hilo, in the Sandwich Islands, was born in 1801. He commenced his missionary work forty-five years ago, and during this period over 12,000 persons bave been baptized by him The record of benevolent contributions made by this church at Hilo during Mr. Coan's pastorate is also remarkable. The rainfall in Nucaou valley, (at the Ice Factory) for the past nine months, up to June 15, amounted to 54.17 inches. Next Friday will be the ever-to-be remembered 4th of July. There is some talk of a race at the Park and of a regatia outside the barbor, but

we hear nothing definite. San Francisco is making preparations to colebrate the day on a grand scale. Where are all the "American peeps" in BISHP's COLLEGE SCHOOL On Monday next, June 30, the parents of the school and all who feel an interest in the institution are invited by Bishop Willis to be present, at 2 p. m. when the following

programme will be presented: 1. Distribution of prizes, singing and recitation 2. Drilling. 3. Athletic sports. 4. Closing service in the chapel. THEATRICALS COMING. - The California Stock Company will arrive by the steamer due from San Francisco July 14. SHOOTING PIGEONS .- A correspondent complains that the owners of pigeon houses are seriously annoyed and injured by the raids of amateur sportsmen-said to be boys and callow youths-who shoot and otherwise destroy the birds. In another column will be found an advertisement Lease of Government Land.

More Fire Stock.—The Ella, which arrived yes terday from San Francisco, brought twelve milch cows, four calves and ten mules to Mr. Herbert, of a gunning in this district a license from the Holes, and three noble looking Durham bulls.

In another column with the fund an advertisement from the Deputy Marshal, offering a reward for information as to the guilty parties. Perhaps every body may not be aware that in order to go a gunning in this district a license from the Holes; and three noble looking Durham bulls. moreover that the penalty for shooting or otherwise destroying any imported bird is a fine of \$5.

BAZAR AT WAIALUA -The fair at St. Stephen's on the evening of Saturday the 21st inst., passed off successfully. The school room had been tastefully decorated by the elder scholars, with part of Flora's vernal robe, which she had lost on the previous day. The room was crowded. Her Majesty the Queen Downger and assistants were surrounded by a group of natives all interested in her loving work. The natives were most enthusiastic over the "grab bag;" if they approved of the contents in the mysterious packages, they would jovially shout "lucky!" but if otherwise, "punipuni, boderation," &c. The greatest novel attractions for the natives were bright colored wool "leis" and handkerchiefs; (each of the handkerchiefs bore Her Majesty's native name "Kaleleonalani" worked in silk or wool.) At 9 p. m. the stalls were cleared and the people seated to listen to a few appropriate school songs by the scholars, after which all joined in the Hawaiian national anthem, "Hawaii Ponoi." Special thanks are due to tree Majesty Queen Emma for the kind and active part she took in the day's proceedings.

Run Over -Last Wednesday forenoon a Chinaman was run over by a dray on Merchant street, and badly injured. The facts are, that the dray was near the foundry and being loaded with iron, the driver having locked the two fore wheels with a chain. Something frightened the horse, which made a sudden start, and breaking the chain ran off along Merchant street. The Chinaman who was injured was watking by the side of another who was pushing. a hand cart, and did not observe the approaching dray until he was knocked down, and the wheels passed over him, breaking his thigh and Infliction other injuries. He was removed to the Queen's Hospital and his wounds dressed, but his condition is critical. The native driver of the dray got on to it and seized the reins in time to prevent the horse from running the guantlet of Merchant street, on which there was the usual crowd of express wagons and other vehicles standing, otherwise we should have had a number of smashes to chronicle and per-haps loss of life. We think that either some wider thoroughfare than Merchant street should be appointed for a wagon stand, or else that the number so standing should be limited.
